Professional: Turkish

Intermediate: Russian, Chinese

Status: Available immediately

Work: Full-time · Contract · Remote

Relocate: Canada — all provinces

Auth: IRCC / Express Entry in process

PROFESSIONAL SUMMARY

Senior Software Engineer with **10+ years** building and shipping production-grade full-stack applications in **React 18**, **TypeScript**, **Node.js**, **PHP 8.3**, and **Python** across eCommerce, hospitality SaaS, and EdTech. Author of **28 production Magento 2 extensions** (MAB Modules Suite) and a hospitality platform in **100+ hotels** (Lighthouse **42** → **91**, bundle **–60%**), plus an ERP-integrated commerce ecosystem processing **100,000+ monthly transactions**. Track record of cutting infrastructure costs **50%**, maintaining **99.9% uptime**, reducing deployment time **~80%** via CI/CD, and shipping with **zero critical post-launch incidents**. Mentored **10+ developers** and defines engineering standards. **Canadian degree equivalency confirmed** (CES, University of Toronto · IRCC-recognized).

PROFESSIONAL EXPERIENCE

Full-Stack Engineer & Integration Lead — Techno Stationery

Nov 2024 – Present

Algiers, Algeria · Full-Stack Development · Commerce Platform

- Author of the **MAB Modules Suite** — **28 production Magento 2 extensions** (PHP 8.3) covering shipping, checkout, inventory, auth, notifications, and performance across the Algerian market.
- Integrated **Yalidine carrier** with real-time shipping across all **58 wilayas** and **165+ delivery centers**; Firebase social login (Google/Facebook) and WebPush abandoned-cart recovery.
- Built and shipped a full-stack multilingual eCommerce platform (French/Arabic RTL) on **Magento 2 + Node.js + PHP 8.3**, integrating 5 payment gateways and driving a **300% sales increase in 90 days**.
- Developed secure REST APIs processing **100,000+ transactions/month** with **zero data-loss incidents** post-launch.
- Engineered ERP–Magento sync pipelines for **26+ retail locations**, cutting inventory inconsistencies **~40%**; owned release process end-to-end (Docker, Linux/Nginx).

Senior Front-End Developer / Systems Analyst — Hotech Systems

Feb 2018 – Present

Remote & Algiers, Algeria · Hospitality SaaS · React / TypeScript

- Led front-end engineering for **OTELLO**, a hospitality SaaS running in **100+ hotels** internationally.
- Rebuilt the full frontend from jQuery to **React 18 + TypeScript**: Lighthouse **42** → **91**, bundle **–60%**, v2.0 released **2 weeks ahead of schedule**.
- Implemented real-time room-status and ops dashboards via **WebSocket**, serving **10,000+ daily active users** with sub-second latency.
- Built GitLab/AWS CI/CD pipelines cutting release time **~30%** and deployment time **~80%**, with zero critical post-launch incidents.
- Mentored junior developers; defined React coding standards, reusable component library, and PR governance adopted across the team.

Co-Founder & CTO — Educaper

Jun 2016 – Present

Istanbul, Turkey (Remote) · EdTech Startup

- Owned full-stack architecture and SDLC in research partnership with **Istanbul Technical University**.
- Shipped web + Android + iOS learning products used by **5,000+ students**; Agile practices improved sprint velocity **~25%**.

Freelance Software Developer

2013 – 2016

Algiers, Algeria · Multi-Sector Client Delivery

- Delivered **15+ custom software solutions** for SMEs: Magento/WordPress eCommerce, ERP/CRM integrations, payment gateways, reporting dashboards.

SELECTED PROJECTS

MAB Modules Suite — 28 Magento 2 Extensions

PRODUCTION

28 production Magento 2 extensions for the Algerian market: Yalidine carrier across **all 58 wilayas & 165+ delivery centers**, multi-source inventory, Firebase social login, WebPush abandoned-cart recovery, French/Arabic localization.

PHP 8.3 · Magento 2.4 · MySQL · Elasticsearch · Firebase · Cloudflare

High-Throughput ETL Data Platform

LIVE

Processes **5TB+ of business data daily** with self-healing pipelines and Prometheus/Grafana monitoring. Achieved **80% faster processing**, **99.95% accuracy**, and **35% cloud-cost reduction**.

Python · Airflow · PostgreSQL · Docker · Kubernetes · Kafka · Grafana

Akeneo PIM — pim.technostationery.com

LIVE

Production Akeneo PIM v6 deployment for enterprise product data management. Led **security remediation** (malware removal, system stabilization, performance optimization) and Magento sync preparation.

PHP 8.3 · Akeneo v6 · MariaDB 10.5+ · Elasticsearch 7 · Redis · Varnish

MAB Coin — Blockchain / Web3

ACTIVE

Founder & lead architect of a blockchain / cryptocurrency platform with **deployable smart contracts**: token architecture, contract logic, wallet integration, decentralized product UX.

Solidity · Smart Contracts · Node.js · TypeScript · Web3 · Ethers.js
